EXPERIENCE

iSolution Cooperative Training

January 2026 – July 2026 | 654 hours

- Developed and tested API proxies using Google Cloud Apigee and Postman.
- Applied security, traffic management, validation, transformation, and error-handling policies.
- Tested successful and failure scenarios, analyzed API flows using Apigee Trace, and documented technical results.

Tuwaiq Mechatronics Program

July 2025 – Duration 1 month

- Gained knowledge in control systems, robotics, and electrical circuits.
- Applied principles of mechanics and electronics in hands-on training projects.
- Collaborated with a team to design and operate basic mechatronics systems.

Data Analysis Virtual Experience | STC & Misk Foundation

October 2025 – Duration 7 hours (online)

Gained hands-on experience in data analytics, user behavior analysis, predictive modeling, and storytelling with data.

EDUCATION

Bachelor of Science in Data Science

Umm Al-Qura University | 2023 – Present

SKILLS

Google Cloud Apigee | Postman | REST APIs | Python | SQL
Data Analysis | Figma UI/UX | Arduino & Raspberry Pi

LANGUAGES

Arabic

English
